

Team Contract

Please complete the following sections and print the document so that each team member can sign it. If printing is too complicated, digital signatures will suffice.

Project Idea

Please describe your idea in 1-3 sentences.

Meeting Times

You have the lab time free for the most part so please feel free to use that time. If that time doesn't work for all of you, find a time that does. I strongly suggest meeting weekly even if it is to say that you haven't made progress.

Absences/Tardies

How will your team handle team members missing meetings or showing up late to meetings?

Communication

How will you communicate? Jira, Slack, Discord, GroupMe, etc. Who will create the group in Github?

Participation

How will your team handle a team member not participating? At what point will you come to me?

Agreement

By signing this document, I agree to put forth the necessary effort to complete my assigned portions of the team project. I agree to attend the weekly team meetings, attend ALL team meetings with Dr. Wagner, and communicate regularly with my team using the tools we agreed upon.
